

Fintech

Our Fintech team pride themselves on delivering innovative regulatory solutions to support exciting new business models and are passionate about helping you achieve your goals.

We work with a wide range of firms who use new and innovative technology to deliver financial products, offering a compliance service that reflects their culture and ultimately their goals. Our clients span the entire fintech spectrum. We help them achieve and maintain compliance with regulatory requirements primarily designed for firms with more traditional business models.

We often work with fintech start-ups from the ground up, helping them launch dynamic and compelling new propositions with commercially-minded compliance built-in.

Fintech sectors we specialise in include:

Compliance support

No matter what compliance support you're looking for in the fintech space, we have the skills and experience to help. This might involve helping you apply for FCA Authorisation, providing you with ongoing compliance support and monitoring services, supervision and enforcement support or a specialist service tailored to your precise business needs and priorities.

We work hand in hand with leading firms in the fintech sector to help them navigate a fast-evolving regulatory landscape. Our clients know they can count on us for the expert guidance and support they need to meet their regulatory responsibilities.
